SUPERINTENDENTS OF COUNTY, SUPERVISORY DISTRICT OR UNION, AND URBAN SCHOOLS, BY STATES.....	4
SUPERINTENDENTS OF PAROCHIAL SCHOOLS.....	88

CLASSIFICATION OF PUBLIC-SCHOOL SUPERINTENDENTS INCLUDED IN THIS DIRECTORY

County and supervisory district or union superintendents.—The county constitutes an area for school administration purposes in all of the States except Delaware, Nevada, New York, and the six New England States.

Twelve ¹ States have a county-unit type of school organization the superintendent of which administers all schools in his area except those in independent districts. In Florida and West Virginia the only administrative districts are county units. Each of the other 10 county-unit States has one or more independent city school districts that are independent of the county. In Virginia, some "divisions," the official designation for all school districts, include the territory of more than one county. Although most Utah districts are complete county units, the territory of some counties is divided into two or three districts each of which has its own superintendent.

In the other 27 States having county superintendents there are few county-unit districts. In these States the county superintendent serves in an intermediate capacity between the State department of education and the local administrative districts in his county, typically performing supervisory or service functions for the local units.

In New England the town (except for a number of city school districts and a few other instances) is the basic unit of school administration. Town school systems that are too small for each to employ a full-time superintendent are grouped in supervisory unions for the purpose of providing a superintendent who serves all town systems in his union. In New York State towns have been combined to form supervisory districts each of which has a superintendent.

In Delaware and Nevada all administrative functions not performed

¹ Alabama, Georgia, Florida, Kentucky, Louisiana, Maryland, New Mexico, North Carolina, Tennessee, Utah, Virginia, and West Virginia.

by local districts are performed by the State department of education.

Urban Place and Superintendent.—Selection of school systems included in this section of the Directory was determined, with the exception noted below, in accordance with the 1950 Census listing of urban places.² The list of urban places shown for each State was taken from Bureau of the Census Series PC-3, No. 8 Revised "Population of Urban Places: April 1, 1950." Some of these places are not incorporated as urban centers; such unincorporated centers are designated with an asterisk (*).

In addition, a number of township and New England town school systems have been included because of their location either wholly or partly in suburban areas of larger cities. According to 1950 Census definition each of these school systems has an urban population of 2,500 or more. Only those suburban-type districts having boundaries coterminous with township or town boundary lines could be included in this particular classification because Census data were not otherwise available concerning their population. All those included are designated with a double asterisk (**).

The urban population of each place included in this section of the Directory is shown in parentheses following the name of the place. These numbers do not indicate the total population of school districts except in places where the boundaries of the urban place and those of the school district are coterminous.

Superintendents administering urban schools are indicated as follows:

Most cities and other urban places constitute independent school administrative districts, each of which has its own superintendent. Where this is true the name of the superintendent is listed after the name of the urban place.

Some urban localities have separate districts for elementary and for secondary schools; others maintain elementary districts only, with a separate high-school district encompassing a larger area such as the county. Where this is true, the districts are designated as "Elem." or "High" and the superintendent for each is listed.

In situations where the schools in urban places are administered as a part of county-unit school systems, the name of the county for each such place is shown.

In cases where urban schools in New England are administered by superintendents of supervisory districts or unions, the number of the union or name of the district is indicated in parentheses. Where urban

² The Bureau of the Census in 1950 classified as urban places (1) all population centers which have 2,500 or more persons and which are incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin where the term "town" refers to units of local government which are not necessarily densely populated centers) and (2) all unincorporated centers which have 2,500 or more persons and which are located outside the immediate vicinity of cities above 50,000 population.

schools are part of town systems, each of which has its own superintendent, the name of the town school district and the name of the superintendent are shown in parentheses.

There are instances in other regions where schools in smaller urban places are a part of nearby larger urban systems. Where this is true, the name of the larger school district is shown in parentheses.

Superintendents of local systems in Alaska, Hawaii, and Puerto Rico.—Urban schools in Hawaii and Puerto Rico are administered by district superintendents. The superintendent for each such district is shown. Superintendents in Alaska, which does not have county or comparable area superintendents, are listed by city.

PAROCHIAL SCHOOL SUPERINTENDENTS

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed by supervisory district.

Urban Place and Superintendent

(In this State the basic unit of school administration is the town. In most instances the boundary lines of the city are coterminous with those of the town school district in which it is located. Other cities and unincorporated urban places are located in town school districts which contain additional territory.)

⁴Supervisory districts in Connecticut do not have permanent numbers or other designation, hence no number or name is applied to them here. Each supervisory district is composed of a number of town school districts which do not employ a superintendent.

INSTITUTIONS OF HIGHER EDUCATION—INTRODUCTION

CRITERIA FOR LISTING IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1954-55, offering at least a 2-year program of college-level studies, willing to submit regularly and promptly the information required for listing, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows:

1. Institutions accredited or approved by a nationally recognized accrediting agency, a State department of education, a State university, or operating under public control, are eligible for inclusion.
2. Institutions not meeting requirements of criterion 1 are eligible for inclusion if their credits are accepted as if coming from an accredited institution by not fewer than three fully accredited institutions.

- IV. *Doctor of philosophy and equivalent degrees*; and
- V. *Other* (explained by footnote).

The designations of institutions by type of program are as follows:

THIS DIRECTORY contains information based upon replies to a questionnaire sent by the Office of Education to education associations and organizations. The fact that an Association or organization is listed in the Directory does not imply that the Office of Education either recommends or evaluates it.

The first item in a listing is the organization's name, followed by the address of headquarters, if any; the second, name and address of the head (president, chairman, director, etc.); the third, name and address of the secretary; the fourth, title(s) of the official periodic publication(s) and frequency of issue. If no address appears for the head or the secretary, it is the same as that for the organization.

The frequency of publication is shown by abbreviations: an. (annual); bien. (biennial); bm. (bimonthly); bw. (biweekly); ir. (irregular); m. (monthly); nos. (number issued each year); q. (quarterly); sa. (semiannual); sm. (semimonthly); w. (weekly).
